**Re:** IT Audit

---

The Information Technology department requests Commissioner's Court authorization to advertise a request for proposals to provide the county an IT Security Audit. The request is included in the approved FY 16 budget.

Stemming from the continued evolution of technical threats to Collin County resources, the basis of this request is to begin yearly assessments of the county's IT enterprise. An FY16 assessment will not include a 'social engineering' audit, as was conducted in the previous FY13 audit. The assessment scope will include technical elements from the FY13 assessment, for measurement of progress, as well as certain areas of concern noted by the IT Security staff that began work for the county in FY15.
